

solvent ink for outdoor applications on wide format and small super wide machines with Xaar or Spectra print heads

Chimigraf introduces in January 2011 its new eXtreme v2 solvent inks, specifically developed for outdoor applications printing on wide format and small super wide machines with Xaar or Spectra print heads.

eXtreme's pigment formulation will bring you extreme printing jobs with intense and brilliant colours to improve your image definition and fast through extreme outdoor conditions.

eXtreme v2 has been specifically designed to become Chimigraf's universal solvent ink to perform in all kind of solvent wide format printers using Xaar or Spectra heads.

Thanks to its special components eXtreme v2 will dry on top of any type of substrates allowing to roll the printing works without sticking even at highest speed of the machine.

#### Differential Values

- Best drying capability on any type of substrate
- High Optical Density for intense and vibrant colours
- Optimum colour gamut
- Brilliant printing results

Chimigraf has developed each inkjet ink series improving the standards of the original ink in all aspects and more specifically the Optical Density in order to achieve intense colours to empower your image.

#### Chimigraf Warranty

1. Chimigraf creates all inks directly from pigments.
2. Total reliability from batch to batch: always consistent in intensity, density and viscosity.
3. Chimigraf inks are evaluated with Xaar, Dimatix, SII and KM print heads.
4. Chimigraf Warranty for Print Heads and Ink Circuit (according to Chimigraf policy).

Machine compatibility: Vutek™ 3360, Wittcolor™, other wide format and small super wide machines with Xaar or Spectra heads

Print Head compatibility: XAAR 126, 128, 128+, Proton, Spectra 128, 256, Nova JA 256/80

Applications: outdoor

Outdoor Fastness: 24 months  
(with Magenta Fire: 12 months)

Shelf life: 12 months

Operational Temperature: 18-27°C

Operational Relative Humidity: 30-80%

Shipping Temperature: -10 to 40°C

Store Conditions: 5-35°C

Hazardous for transport: NO

MSDS: Harmful Xn:R20/21

Availability: YMCK, LM, LC

Container: 5l bottle, box with 4 bottles  
1l bottle, box with 16 bottles

Cleaner compatible: Flush

All Chimigraf Ink-jet inks are supplied and service by our network of Chimigraf Authorized Distributors
